

ROLLER MILL MODEL: CLARUS^INOX

*Made with passion
Tutkuyla tasarladık*

CLARUS^INOX

CLARUS[^]INOX

Inox'un paslanmaya, aşınmaya, yıpranmaya dayanıklılığını, asit oluşumuna dayanıklılığını, yıllarca pürüzsüz ve hijyenik kalmasını, yüksek sıcaklıklara dayanıklılığını tasarımla birleştirdik ve ortaya **CLARUS[^]INOX**'u çıkardık.

CLARUS[^]INOX, komple INOX gövde yada sadece ürün temas eden yüzeyler INOX olmak üzere iki opsiyonda sunulmaktadır.

CLARUS[^]INOX is manufactured in 2 versions: Full body made of Inox or product touching surfaces only made of Inox.

We know what you have been expecting,
that is why we have developped CLARUS[^] INOX.
It is definitely the combination of Inox (hygienic, anti-acidic and food-grade application) and High Standart Design & Performance

NOW WITH 1500 MM LONG ROLLS
